

June 15, 1950 - Fri.

Dear Dicki and Jim,

I have been playing bridge all week during the regional tournament at the Seattle Center. Mildred (my partner) and I came in third in the women's pairs and all the top scores were close so I was satisfied. Dad and I plan to play tonight and Saturday night in the side event. Dad has been working two or three nights a week and on Saturdays so we stay in bed later in the mornings or he goes to work about noon if he is going to stay late at the office.

He plans to start a two week vacation beginning July 9th. As the gasoline situation going to have any effect on your plans?

I have noticed several stations here
have cut away down and also close
early.

Our weather is on the cool side
and also very rainy. We still have
to keep the heat on and cover up
at night. I am so glad you have
an air conditioner. It must help
quite a bit.

I don't have any tomatoes yet but
at least I have kept the slugs away.

Mike Stranberg was due to arrive
home Wednesday. I think he ~~is~~ has
finished the job down there but I am
not sure.

Mary said you might get home this
summer. That would be very nice.
See you more soon and I am going
down to the post office now.

Love,
Mom.
